

and NOW... the

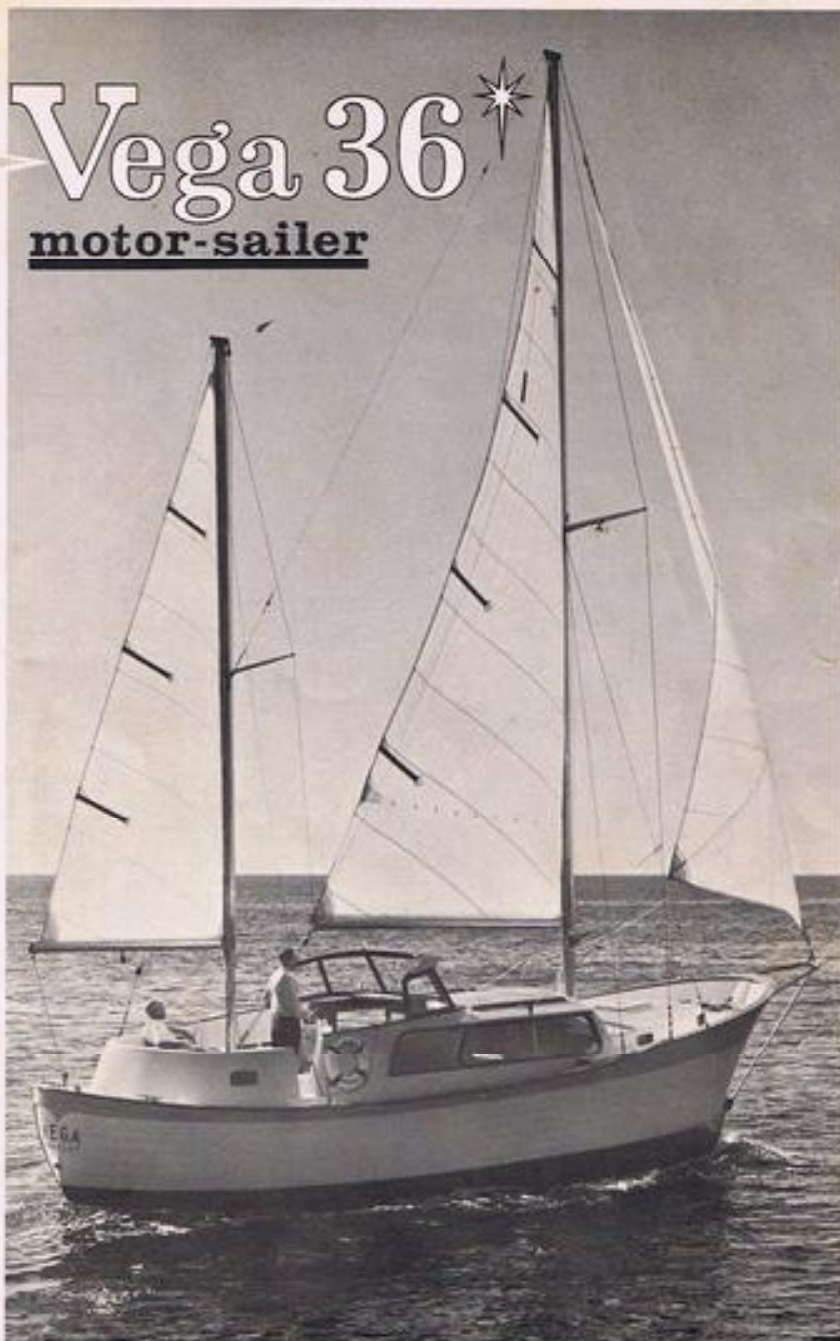

Vega 36^{*}

motor-sailer

at last...
a TRUE
Diesel Motor-Sailer

designed to meet the
requirements of experienced
yachtsmen for extended
offshore cruising.

- the proven VEGA molded fiberglass double-ended hull, by William Garden.
- top-side designed for ease of handling, unrestricted visibility — walkaround decks and modern lounge-type cockpit.
- below-deck areas are spacious and airy for genuine live-ability for six in three separate cabins.
- quality of details emphasized throughout, from the molded-in plank lines to the rich mahogany trim and cabinetry.
